A personal sense of humor is a funny thing. What one person thinks humorous the next one thinks it an absurdity. Human nature has made it possible for the majority of us to enjoy good clean humor at all times.

But there are times when a person becomes quiet conflicting and rather annoying.

It seems that when a person is feeling good his sense of humor is usually annoyign to others. This type of humor goes with a domin--ent character or a superiority complex.

A sense of humor is a good thing to have, but be sure every one appreciates your view of humor.

It is a known fact that the majoriety of people enjoy music and our only method of having musical entertainment is with the Comapany Radio. But it seems as though the radio is for the benefit of some one, instead of for the groop.

When the radio id operating it seems the oral "Conflab" is on the largest part of the time and when there is any music the radio is tuned so low no one can hear it, unless standing in front of the Canteen counter. A polite request for a little more volume goes un--heeded.

If music interferes with business I suggest the radio be moved to an equally safe spot where a variety of programs can be received and loud enough for all interested can hear the programs.

Another period ended for some, is the beginning for others. The Rookies so far have proven themselves good fellows, to have in our camp. Keep it up boys and life in the CCC's will be pleasant.

You boys have quiet a job in front of you. The places you are here to fill is of boys this camp is glad to have had with them for fifteen months.

Remember fellows this camp is what oyu make it. If you start off on the wrong foot it will take a long time to get back on the right track.

Do as you are told by your superiors and don't be a GOLD BRICK.

FLU

For the first time in several weeks Earl Rinker and little Rice are working almost hard enough to earn their pay. With 21 cases of Influenza to care for and more coming in every day, they have about all they can do. Every crew in the outfit is short handed.

The Educational Room and the Recreation Hall have been commandeered by the Infirmary. This was necessary in order to house the sick.

There are rumors of six thousand cases in Jacksonville. It is reported that there are seventy-one cases in the camp at Sulphur Springs. We can not vouch for these figures, we only heard them in the usual way.

CAMP GETS ARTIST

Who said the C.C.C.'s were not up to date? Here is something that will prove us to be up to the standard of any city.

Mr. Reynolds (Doug) reported for duty to this camp Dec. 30, 1934 as a government artist. Since that time M. Reynolds has been very busy painting different scenes and happenings that give an idea of what camp life is like.

The pictures are at the present time posted in the Recreation Hall. Later they will be sent to the Washington Headquarters of the C.C.C.

The camp is glad to have an artist with them and many of the boys will pose for pictures as soon as the artist has time for such work.

PIANO NEEDED

This camp needed a piano in order to have the Christmas Dance. Lt. Mackay proceeded to try and get the said object. After inquiring around in Sarasota an idle piano was found and borrowed.

The piano remained with us until January 3rd and then returned to Sarasota.

This leaves Co. 1421 without a piano. Lt. Mackay announced that without a piano we could have no dance in camp and asked each member to donate what he could toward the purchase of a piano.

The boys have donated, and a Kangaroo Court donated $5.00 .

NEW SHOWERS

The camp nears completion every week. The large 3,000 gal. water tank is erected, the sewage system has been laid and a pump installed to furnish the water supply.

Along with these improvements comes the Showers. Hot and cold water will be furnished in the Shower House by a brick furnace and a 500 gal. tank.

The Officer's Quarters have an 85 gal. hot water tank to supply them with hot and cold showers.

The Forestry Headquarters also have a 50 gal. tank and furnace.

KANGAROO COURT HELD ON ROOKIES

The past two weeks have been the scene of many different happenings around camp. New men have arrived and received the "usual" welcoming that all "Rookies" get.

The first recruits arrived Sunday Jan. 6th and another bunch came in Monday night.

The Sunday arrivals were not in camp long before they were demonstrating their ability of running between two lines of boys armed with belts to encourage them along. This is better known as the Belt Line.

The Monday night recruits were given the works Tuesday afternoon.

Kangaroo Court began immediately. The old sentence of "With or Without" was the favorite sentence of Judge Red Busbee. The Judge wore a basket on his head and dared not remove it while passing the sentences on his clients, as a nice paddle was handy for his mistakes.

(cont'd)

The men were all found guilty, as usual, and were allowed to buy out or take the rap. Quite a few bought out as the pants they wore were very thin and the paddles hot.

No marks and bruises remain and all had a nice time. The new men found themselves good sports and are now full-fledged members of C.C.C. Camp 1421. Congratulations Rookies!

Buddy King, Tony the Wop and Mozelle Mc Cullers seem to have their futures picked out. From the display they made Tuesday Earl Carrol is overlooking a good bet if he doesn't sign them up for his chorus.

Benny, our Topkick is beginning to become humpbacked from looking down to see if his chest is expanded. --o--o--o--

HE SPOKE OUT OF TURN

All this writer knows is what he hears around the Mess Hall.

Fat was raised by good parents in Arcadia a city you all know well.He came to the CCC's and spoke out of turn.

The sherif brought him in.The jury found him guilty, and the clerk wrote it down. The judge passed the sentence, and Fat was thrown in Kangroo Court.

Fat was put across a barrel one Sunday morning. And every lick brought forth a groan. As he walks around the camp the boys say there goes the man that spoke out of turn.

Now boys, you who are young a n and tender take warning. Do not stay up late at night. Do not drink,and gamble. Most of all do not speak out of turn in the CCC's. if you do remember it means fifteen with or fifteen without in the kangroo Court.

CRADDLE SNATCHERS

There are two girls in Sarasota that like to see you and speak to you. Their names are, Edie and Trixie.

Signed

&

Also a girl named Terry.

Oh you Romeos.

BOYS TRAIN

Friday night Mr. Stem had his proteges showing off for the boys, of this camp.

Several of the men gave a good exhibition of their ability to box.

Red Durden, the two hundred and five pound Leader gave the new men something to think about when they go into the woods to work for him. There is no doubt about them not doing what they are told to do by him.

Red has a nice chance to go places in the fight game. As well as a few other willing men in this camp.

Before long this camp will be giving an impression of itself to the fight fans.

Nilo has invented three new garden sprinklers. One without five holes to not water Roses. The second one withuot fifty holes to not water Carnations, the third without seventy-five holes to not water anything.

He also suggests that the roads be of rubber and the auto-mobile tires be concreet. Such crust.

Lt Jack Davenport has been a very busy man the last few days. He has schedigulled two games with Ringland Brothers Basketball team. The first game will be played Jan. 22, and a return game will be played at a later date.

Lt. Davenport is trying to get other games with teams in this vicinity.

MR. C.A. EDSON VISITS

Friday afternoon the Fourth Corps Area Educational Supervisor, came to this camp.

His visit lasted until Saturday morning.

CAMP CHATTER

Quesada is quiet a songster, he sounds like Bing Crosby does when he keeps his mouth closed.

One of the new boys approached our top kick the other day and asked, "Is there any mail for me Lieutenant?"
Benny answered, "No none at all"
His chest began to swell.

We have another third cook. What does it take Thomas?

Emery Wuthrich certainly can take it. There was nothing else for him to do however.

Manuel Hovsepian is viewing the country quiet a bit the last few days on his and Chickens' Motor Cycle.

BOXING RING BEING CONSTRUCTED

Saturday morning Mr. Stem and Lt. Davenport began the much needed boxing ring.

The ring is being built in the Recreation Hall. It will be the regulation size, sixteen feet by sixteen feet.

Some of our boys are receiving letters from Sarasota girls and are very careless about how they leave them lay around. You Romeos had better watch out if this reporter can be of any help to you he will be. But letters are being handed to him to publish and do girls hate for others to read her notes.

This paper is not trying to encourage such actions but will publish any that are good, and comical.
